

## Guided Tour Satisfaction Survey

### Guided Tour Organisation

			
I think the organisation of the activity has been appropriate.			
The resources provided for the activity have been appropriate.			
The time length is in line with the fundamental objectives of the activity.			

### Development of the Guided Tour

			
The explanations of the person who led and introduced this guided tour were particularly useful.			
The video about History of Computer Science has been very attractive and instructive for me.			
The video about advertising in computing has been very attractive and instructive for me.			
The leaflet which describes the activities is well structured and helpful.			
The tour through different display windows has been interesting for me.			

### Overall Assessment

			
I think this activity has been helpful and a motivating factor to study History of Computer Science.			
In my opinion this activity is really helpful for a better understanding of computers today.			
I would recommend this educational experience to other people.
